## COPYCAM

Convert your existing whiteboard or chalkboard into a color copyboard in minutes. Instantly capture notes and images with the touch of a button. Work on the board as usual and then press one of three buttons to print, save to disk, or save to the Web. No more hassle of post-meeting transcription, worrying about erasing vital information, or walking away without hard or electronic copies. CopyCam enhances the learning and listening environment by eliminating the requirement of participant note-taking and providing instant access to presenters' notes. There is no equipment setup prior to meetings and CopyCam is so intuitive, no computer, or training is necessary.

Breakthrough, proprietary technology provides the foundation for CopyCam's simple operation. Advanced lens optics embedded in a wall-mounted camera arm capture every color image with superior clarity — even the notes in the corners of a 4' x 8' board. The color, wireless printer (included) eliminates bulky cords and can be located anywhere in the room. CopyCam's sleek industrial design is non-intrusive and does not distract from the presentation.

| FEATURES | BENEFITS |
|---|---|
| RETRO FITS TO ANY BOARD UP TO 4'x 8' IN SIZE | − CONVERTS EXISTING WHITEBOARD OR CHALKBOARD INTO AN ACTIVE COLOR COPYBOARD<br>− SAVES TIME; ELIMINATES TRANSCRIPTION<br>− REQUIRES NO SPECIAL PENS |
